Workflow

- 1 Tap Add.
- 2 Say it — for example, remind me to take the bins out tomorrow evening.
- 3 If you said what and when, it saves straight away.
- 4 Or pick Plan it, Remember it, Do it, Book & go, Buy & pay, or Life & people.
- 5 Or tap Something else and type in your own words.
- 6 The first save may ask to turn on quiet phone reminders.

Good to know

- The six paths work with no Ready4 pack.
- Wedding, moving, baby and other pack choices stay hidden until that pack is installed.
