

Settings, lock and reminders

Push, quiet hours, daily summary, app lock, home place, and voice.

Nudge me Ready v3 · 0.3.1 · Menu → Settings.

Settings, lock and reminders

Settings, lock and reminders

Workflow

- 1 Turn on Push so dated items can nudge the lock screen.
- 2 Quiet hours hold alerts overnight.
- 3 Daily summary names today's real titles, or stays quiet if nothing is due.
- 4 Security: password or PIN, optional Face ID, recovery email and recovery code.
- 5 This is home saves a leaving-home place when you want that checklist.

Good to know

- Forgetting a PIN resets the lock — it does not delete nudges. Uninstalling the app does.
